

Financial Forecast

Prepared for Sample Client

Plan: Baseline

Prepared 11 November 2026

Footes Financial Planning. This report is an illustration based on the assumptions shown inside. It is not a guarantee of future values.

Summary

Based on the assumptions in this report, your savings are forecast to run out at **age 83**. After that, spending would need to be met from other sources.

Savings and investments today **£600,000**	Savings at age 95 **-£244,307**
Money lasts **Runs out at age 83**	Total income tax **£115,890**
Total tax-free cash taken **£123,929**	Total charges **£41,965**
Total life event costs **£45,000**	

All figures are in today's money: future amounts have been reduced by the assumed rate of inflation so they can be compared with prices now.

About you and our assumptions

Assumption	Value
Client	Sample Client, born 20 May 1964 (age 62)
Plan runs	From 1 Nov 2026 to age 95
Inflation	2.0% a year
Investment return scenario	Central
Income tax	2026/27 rules, rest of UK rates; thresholds frozen until April 2031
Pension lump sum allowance	£268,275 (frozen)
State Pension age	67
Planned retirement age	65

Assumed investment returns before charges

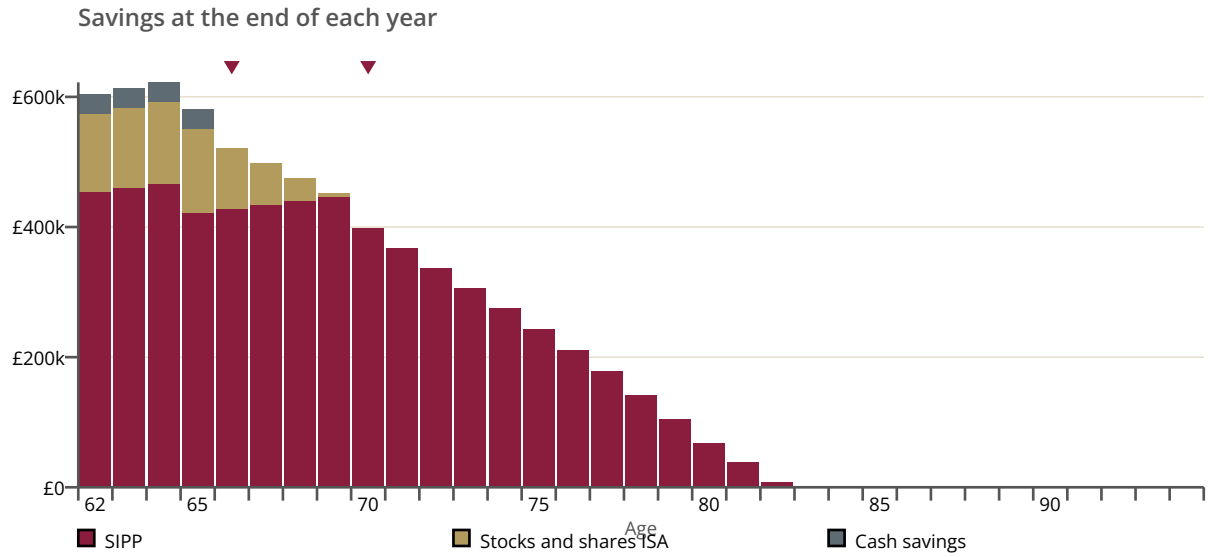

This report uses the **central** return for each attitude to risk.

Attitude to risk	Lower	Central	Upper
5 – Balanced	2.0%	4.0%	6.0%
6 – Balanced to Adventurous	2.5%	4.5%	6.5%

Your savings and investments

Gross is the assumed return before charges. Net is the return after the percentage charges on the account. Any fixed annual fee is taken in addition.

Account	Type	Value today	Return basis	Gross	Charges	Net
SIPP	Pension	£450,000	ATR 5 (Balanced)	4.00%	0.58%	3.42%
Stocks and shares ISA	ISA	£120,000	ATR 6 (Balanced to Adventurous)	4.50%	0.58%	3.92%
Cash savings	Cash	£30,000	Custom rate	2.00%	0.00%	2.00%
Total		**£600,000**				

Triangles above the bars mark years with a life event.

Charges and their impact

Ongoing charges are taken each year as a percentage of the account's current value, so they rise and fall with the value of your investments. Fixed fees are a set amount each year.

Account	Charge	Rate	Fixed fee	First year	Whole plan
SIPP	Fund management charge (FMC/OCF)	0.15%		£370	£9,710
SIPP	Platform charge	0.25%		£616	£16,183
SIPP	Discretionary fund management (DFM)	0.18%		£444	£11,652
Stocks and shares ISA	Fund management charge (FMC/OCF)	0.15%		£99	£1,143
Stocks and shares ISA	Platform charge	0.25%		£164	£1,906
Stocks and shares ISA	Discretionary fund management (DFM)	0.18%		£118	£1,372
Total				**£1,811**	**£41,965**

Impact of charges

Over the whole plan, charges total **£41,965** in today's money. Because money taken in charges no longer grows, the forecast without any charges would end with **-£203,953** at age 95, which is **£40,355** more than the forecast with charges (-£244,307).

Without charges, savings would run out at age 85 rather than running out at age 83.

Income, spending and life events

Income

Income	Type	Amount	When	Increases	Taxable
Salary	Employment	£55,000 a year	From age 62 to age 64	With inflation	Yes
State Pension	State Pension	£241 a week	From age 67 onwards	With inflation	Yes

Spending

Spending	Category	Amount	When	Increases
Living costs		£36,000 a year	From age 62 onwards	With inflation
Holidays		£6,000 a year	From age 62 to age 80	With inflation

Scheduled withdrawals and retirement income

Scheduled withdrawal	From	Amount	Basis	Method	When
Tax-free cash	SIPP	£50,000 one-off	Gross	Tax-free cash	At age 65

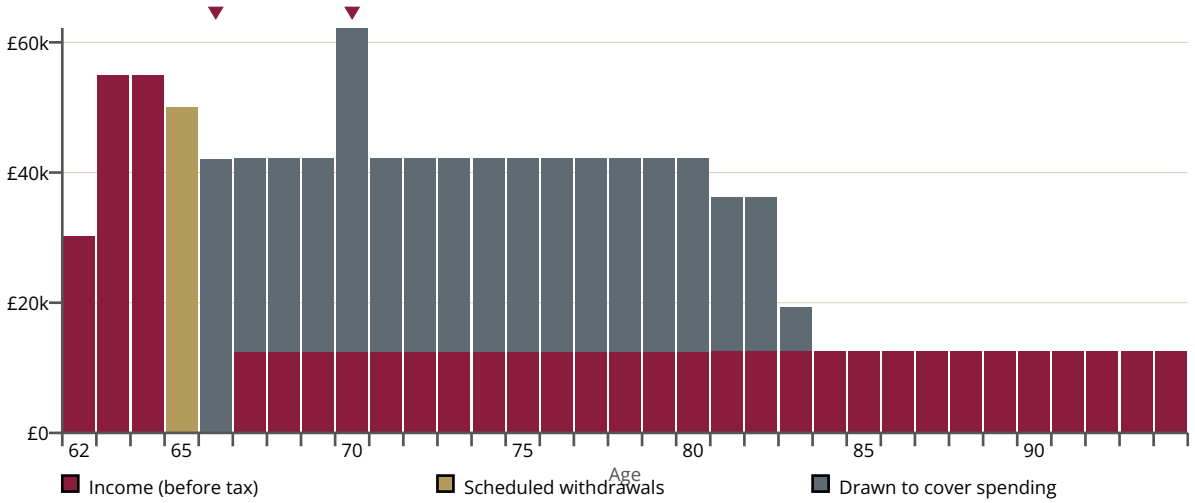

Life events

Life event	Type	Amount	When	Increases	Paid from
New car	Vehicle	£25,000 one-off	At age 66	With inflation	Stocks and shares ISA
Gift to children	Gift	£20,000 one-off	At age 70	With inflation	Cashflow (withdrawal order)

Life event timeline

Age	Year	Event	Cost	From account	From cashflow
66	2030	New car	£25,000	£25,000	£0
70	2034	Gift to children	£20,000	£0	£20,000

Where the money comes from each year

Income tax and tax-free cash

Over the plan, income tax totals **£115,890** and tax-free cash taken from pensions totals **£123,929**. Tax is worked out on all taxable income together, including salary, State Pension, other pensions and rent, so pension withdrawals can fall into a higher band when other income is high.

How the tax is worked out at age 62

Taxable income £30,135. Amounts above the personal allowance fall into these bands:

Band	Rate	Income in band	Tax
Basic rate	20%	£20,656	£4,131
Higher rate	40%	£2,592	£1,037
Total		**£23,247**	**£5,168**

Tax year by year

Age	Year	Taxable income	Income tax	Tax-free cash	Effective rate
62	2026	£30,135	£5,168	£0	17.1%
63	2027	£55,000	£9,568	£0	17.4%
64	2028	£55,000	£9,811	£0	17.8%
65	2029	£0	£0	£50,000	0.0%
67	2031	£12,548	£207	£0	1.6%
68	2032	£12,548	£207	£0	1.6%
69	2033	£12,548	£207	£0	1.6%
70	2034	£52,928	£9,658	£13,460	18.2%
71	2035	£38,717	£5,440	£8,723	14.1%
72	2036	£38,717	£5,440	£8,723	14.1%
73	2037	£38,717	£5,440	£8,723	14.1%
74	2038	£38,717	£5,440	£8,723	14.1%
75	2039	£38,717	£5,440	£8,723	14.1%
76	2040	£38,717	£5,440	£8,723	14.1%
77	2041	£39,459	£5,589	£8,130	14.2%
78	2042	£50,811	£8,811	£0	17.3%
79	2043	£50,811	£8,811	£0	17.3%
80	2044	£50,811	£8,811	£0	17.3%
81	2045	£42,121	£6,121	£0	14.5%
82	2046	£42,121	£6,121	£0	14.5%
83	2047	£20,939	£1,885	£0	9.0%
84	2048	£12,548	£207	£0	1.6%
85	2049	£12,548	£207	£0	1.6%
86	2050	£12,548	£207	£0	1.6%
87	2051	£12,548	£207	£0	1.6%
88	2052	£12,548	£207	£0	1.6%
89	2053	£12,548	£207	£0	1.6%
90	2054	£12,548	£207	£0	1.6%

Age	Year	Taxable income	Income tax	Tax-free cash	Effective rate
91	2055	£12,548	£207	£0	1.6%
92	2056	£12,548	£207	£0	1.6%
93	2057	£12,548	£207	£0	1.6%
94	2058	£12,548	£207	£0	1.6%
Total		**£898,107**	**£115,890**	**£123,929**	

Comparing scenarios

The same plan with different assumptions or events, to show how sensitive the forecast is to them.

Scenario	Savings at end	Money runs out	Income tax	Charges
Baseline	-£244,307	Age 83	£115,890	£41,965
Long-term care from 85	-£782,113	Age 83	£115,890	£41,965

Year-by-year cashflow

Each plan year runs from one birthday to the next; the first year is a part year. Spending excludes life events, which are shown separately.

Year	Age	Savings at start	Income	Scheduled withdrawals	Drawn for spending	Spending	Life events	Contributions	Charges	Income tax	Taxfree cash	Savings at end
2026	62	£600,000	£30,135	£0	£0	£23,012	£0	£0	£1,811	£5,168	£0	£604,743
2027	63	£604,743	£55,000	£0	£0	£42,000	£0	£0	£3,334	£9,568	£0	£613,440
2028	64	£613,440	£55,000	£0	£0	£42,000	£0	£0	£3,384	£9,811	£0	£622,271
2029	65	£622,271	£0	£50,000	£0	£42,000	£0	£0	£3,435	£0	£50,000	£580,239

Important information

This forecast is an illustration only. It is based on the information you have given us and on the assumptions shown in this report, including investment returns, charges, inflation and tax rules. Actual returns, inflation and tax rules will differ and the value of investments can fall as well as rise, so the outcome is not guaranteed.

Figures are shown in today's money. Tax is calculated using the current UK income tax rules described in the assumptions; National Insurance, Capital Gains Tax, Inheritance Tax and dividend or savings-income tax rates are not included.

This report should be read together with our advice. Please contact us before acting on it.
